INTRODUCTION

The purpose of the Business Plan is to set targets to support the improvement for the academic performance and the social and emotional well-being of the students of the college. It also sets the framework for the Operational Plan for the college. In addition there are specific plans that address the new initiatives of the college and some of the key targets that require very detailed tracking.

Wanneroo Secondary College offers a range of educational programs that provide a variety of educational pathways and a range of opportunities. Of particular importance are the Joondalup Campus and the Learning Centre.

It is dedicated to the pursuit of excellence and the development of a supportive and challenging learning environment. Through our shared vision Dream, Believe, Learn, Succeed we aim to ensure that all students have the opportunity to achieve their full potential and be positive and effective members of society. We have developed a diversity of programs and opportunities to assist students to achieve their dreams and goals. Our aim is for every student to attain either University Entrance or a Vocational Education & Training qualification by the completion of high school, in many cases both.

The College aspires to assist students to develop an awareness of where they fit in the global community. This is relevant because their futures will ultimately be shaped by a rapidly changing world. The college looks always to the future in developing its programs to ensure that students are well equipped for what-ever careers they may choose.

We recognize that parents are the most powerful educative influence in the life of the child. The home and school are complementary forces in the child’s education and therefore parental involvement and interest at all levels is encouraged and appreciated.
Our Vision Statement is “Star in Your Future... Dream, Believe, Learn, Succeed!”
